Greetings *from the Board of Directors*

2023 has been a mixed year for BIAG.

It started off promising with our Dream Big: Stroll and Roll Festival work held in March in Woodstock. It was the first opportunity for BIAG to hold a walk in three years. We had a last-minute venue change. However, there were numerous participants along with a sense of excitement for future walks.

A couple of months later, in May, our THINK BIG 2023 conference was held at the Shepherd Center. Again, it was the first opportunity in three years for BIAG to host this type of event. It was a success, and we appeared on a path back to "normal."

However, a month later In June, BIAG lost one of its champions, Roger Brathwaite. Roger was the founder of the Young and Restless in Atlanta Stroke and TBI Support Group. He also served as the Vice-chair for the BIAG Board of Directors in 2023 at the time of his passing. We are still heartbroken for our loss.

In those tough moments, it is often the precise thing to direct one to reflect on BIAG's mission.

"The mission of the BIAG is to provide Hope, Help, and Support to the citizens of Georgia who have sustained or been affected by brain injury.

BIAG is dedicated to increasing access to quality health care and raising awareness and understanding of brain injury through Prevention, Education and Advocacy.

Together with its network of affiliates as well as support groups throughout the State of Georgia, BIAG is the VOICE OF BRAIN INJURY in Georgia for individuals, their families and the professionals who serve them."

The population of those with brain injuries is both vulnerable and underserved. All too often, they have had their lives upended and need assistance, both emotional and financial, to right themselves. We have offered support groups across the state of Georgia for many years, and we continue to add new groups even now.

To be that voice for them requires intention first and foremost, but that alone is not enough. In addition, it requires dedication and resources. The arduous work of BIAG's staff reflects that dedication.

However, BIAG needs more resources. Primarily, those resources need to be financial. We need adequate funding to implement the plans that our heads, and our hearts, desire to do for these incredible people. Nowhere was that made more evident this year than with Camp BIAG.

Camp BIAG is a unique overnight camp experience designed specifically for adults (18+) with a brain injury. Camp BIAG is the most complete and cost-effective recreational and therapeutic program in the Southeast focused on the special needs of the brain injury community. There is no charge for the survivors to attend.

Unfortunately, BIAG had to make the extremely difficult decision to cancel this signature event due to the potential financial strain on the organization. That was a crushing blow. One which no one associated with BIAG ever wants to repeat again.

With that in mind, the staff and board of BIAG are resolute in our approach to 2024. We are focused on fundraising efforts to allow this organization to reach its proper and fullest potential. The people we serve deserve no less than that.

In a sense, 2023 was a year for BIAG to have a mirror experience to the lives of the people it serves. A step ahead along with an occasional setback. An understanding that things will never quite be "easy" but always determined to make a way regardless.

We hope that you will partner in this difficult journey as we navigate. Any help you can provide will support a population of incredible individuals with some of the greatest needs.

Thank you for your continued support.

Sincerely,
KEITH R. MILES
Chair, BIAG Board

Who We Are

OUR MISSION

Our mission is to provide hope, help, and support to the citizens of Georgia who have sustained or been affected by brain injury.

Brain Injury Association of Georgia (BIAG) is dedicated to increasing access to quality health care and raising awareness and understanding of brain injury through prevention, education and advocacy.

Together with its network of affiliates as well as support groups throughout the State of Georgia, BIAG is the VOICE OF BRAIN INJURY in Georgia for individuals, their families and the professionals who serve them.

OUR PURPOSE

BIAG connects people coping with brain injury to vital resources and to help navigate the road of rehabilitation and beyond.

Our Board of Directors is comprised of survivors, volunteers, and professionals from the Georgia brain injury community.

BIAG is a non-profit organization serving individuals with brain injuries and their families, friends, and service providers. Founded in 1982, we strive to improve the quality of life for people with brain injury and their family and friends through our programs and services.

Program *Highlights*

Resource Facilitation for TBI Survivors

The Resource Facilitation Program is made possible through an Administration for Community Living (ACL) grant awarded to the Brain and Spinal Injury Trust Fund Commission (BSITFC). BIAG partners with BSITFC supporting individuals affected by a traumatic brain injury statewide.

BIAG has expanded our staff to support the program and developed a new database for reporting on this grant funded program.

Brain & Spinal Injury Trust Fund Commission

Community Events

BIAG hosted its first in-person fundraising events in three years.

March: Dream BIG: Stroll and Roll Festival for Brain Injury Awareness Atlanta. This event included a 2+ mile course for runners, a 1 mile for path walkers and wheelchair “rollers” and tons of crafts and family fun! We all wore our favorite superhero outfit (t-shirt, cape). Also, that day was the 12th Annual Brain Injury Awareness Roll, Walk, or Run in Augusta.

May: 3rd THINK BIG conference, focusing on those TBI survivors who are underserved and underfunded and discussing the connection between brain injury and those who experience intimate partner violence (IPV), human trafficking (HT), and the criminal justice system. Over 100 case managers, social workers, physicians and nurses, psychologists, occupational, speech/language, physical, and recreation therapists attended this cooperative offering from both Shepherd Center and the Brain Injury Association of Georgia.

June: 1st Annual Swing BIG FOR Brain Injury Awareness Golf Tournament at Top Golf in Midtown Atlanta.

Advocacy and Education

As an affiliate chapter of the Brain Injury Association of America, we mobilize volunteers, lobbyists, support groups and special interest groups to partner with BIAG in actively advocating for legislation affecting the disability community.

In 2023, our Executive Director, Cassandra Palmer, along with our Board members, met with community supporters such as the Joe Nieko Foundation, the ADRC Advisory Council, the ADRC Elder Rights Advisory Council, attended the Latin American Association Health Expo, and began a new collaboration with the Shepherd Center on a TBI Employment Grant award.

In addition, Cassandra represented BIAG at ATL Veterans Admin TBI Day, Gwinnett County BOE Special Education Transition Day, and the Rural Health Association conference. On a national level, she traveled to Washington, DC for the NASHIA Seed Summit and Capitol Hill Day, and met with Georgia elected officials for funding requests for 2024 appropriations meetings.

Board member and TBI survivor attended the annual BIAA conference, representing all of Georgia.

Call Center Statistics

1,217

New calls for BIAG assistance

210

Callers Assisted—with a Traumatic Brain Injury (TBI)

226

Callers Assisted—with an Acquired Brain Injury (ABI).

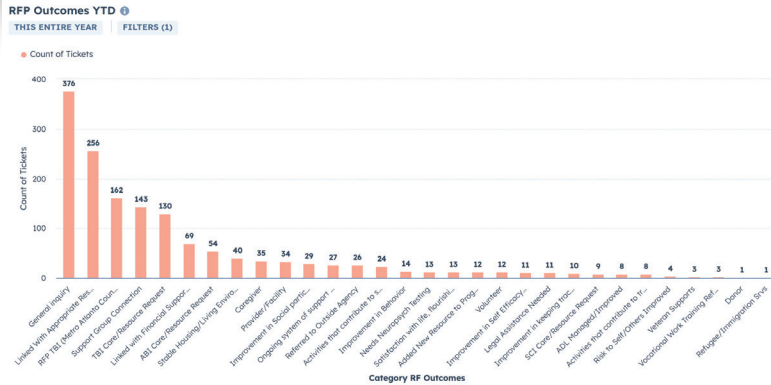

83

Callers Assisted—with Dual Injuries, having either TBI/SCI, ABI/TBI, or subsequent head injury noted

The Brain Injury Association of Georgia (BIAG) connects people with a Traumatic Brain Injury (TBI), their families, caregivers, and community with tools to navigate medical and general life challenges after a TBI. Our staff of Resource Facilitators provide education and resources to improve coping skills following TBI by connecting individuals with needed supports including information, education, and resources provided. The Resource Facilitation Program (RFP) is a free service offered to citizens of Georgia in conjunction with the Brain and Spinal Trust Fund Commission. RF Specialists assist TBI survivors with applying for a BSITFC grant, through the RF Program.

BIAG Staff apply the same RF Program resources and support model for callers with non-traumatic, acquired brain injuries (ABI) and undiagnosed cases, minus the BSITFC grant program for TBI survivors.

Working Together

14

Virtual Support Groups

10

In-Person Support Groups

1

Hybrid Group

3

College Student-Led Groups

Why Attend a Support Group?

The purpose of a support group is to learn more about brain injury and available services by **meeting with others who are facing or have faced similar challenges**. We encourage everyone to Live BIG... Virtually and In-Person

BIA support groups added **several new support groups across the state**. These include in-person groups like Team Survivor (Cartersville), Brain Injury Survivors (Atlanta), and the Stroke & Head Injury Support Group (Valdosta).

We also have a **new virtual group, Holding Life Together**, a support group for young adults in their late teens and 20s.

The Young and Restless in Atlanta support group began **our first hybrid group**, meeting both in person and on Zoom simultaneously with great success.

The national organization Synapse continued to connect college students and survivors and Emory University and Georgia State University.

Member *Experiences*

WHAT DOES OUR COMMUNITY SAY ABOUT BIAG?

CLIENT	DETAILS	OUTCOME
Caregiver, Spouse (Anonymous Caller)	Wife of pilot in plane crash, concerns of undiagnosed TBI—even though there were multiple skull and orbital fractures, a broken jaw, and nerve damage in chin, the therapy focus has been on the broken legs. Has had CT scan of head.	RF Program participant provided BI screening tool and support information. Caller wrote “Thank you so much. We didn't know where to start!”
Irene C.	Sustained ABI event as a child, leaving her with homonymous hemianopia, affecting her vision. Upon moving from Florida, she was hit by the pandemic, lost her support animal, and had no visitors for most of 2020.	“I enjoy being able to speak with you. You listen and understand me. The program I'm going to is going well. I'm not depressed and getting out, with the Marta Mobility Pass, that was approved...thank you so much!”
Adam F. BSITFC Grant Recipient	Sustained a TBI on Halloween 1999. Is a hemiplegic, uses a power chair, and struggles with a speech disability, making it hard for him to be understood at times, especially over the phone.	Adam was connected to a resource providing a device used for speech impairment and is participating in an aphasia research project. Adam likes to make videos and writes us in emojis, adding “This program is awesome! Ms. Jane helped me a lot—it's changed my life.”
Bill P.	ABI and mobility issues. Uses a wheelchair. Camp attendee for past eight years.	Loves the experience of camp! Wishes it was a week long and more junk food. Favorite activity at camp was the Giant Swing.

**All callers gave permission to share their stories to support BIAG's mission. Caller names and identifying details have been changed to preserve anonymity.*

Camp BIAG

Camp BIAG is a unique overnight camp experience designed specifically for adults (18+) with a brain injury. Camp BIAG is the most complete and cost-effective recreational and therapeutic program in the Southeast focused on the special needs of the brain injury community. **There is no charge to the survivors to attend.** Camp BIAG, in partner with Camp Twin Lakes, is run by a highly-trained staff that can address the unique medical and emotional needs of each camper. Camp sessions are called life-changing by our campers.

Many share this is the one place where they feel, ***“I can just be me!”***

To allow BIAG to continue with the day-to-day efforts to assist current and new survivors on their recovery journey, it has been decided that **Camp BIAG will be placed on hold until we find sponsors.** Please know that our staff, Board members, and volunteers are working tirelessly to keep BIAG running with the same high level of excellence we've provided for over 35 years. However, **our financial situation is in dire need of support. Please consider supporting Camp BIAG.**

LIVE BIG GIVE BIG

A unique overnight camp experience designed specifically for adults (18+) with a brain injury.

Camp BIG is **the most complete and cost-effective recreational and therapeutic program in the Southeast** focused on the special needs of the brain injury community. **The cost of operating an in-person camp averages \$35-\$40,000.** Please consider making a tax-free donation today.

Camp BIG offers adults who have survived a brain injury—both ABI and TBI—an opportunity to have fun, to be with others who understand, and to engage in accessible recreational activities. This experience **supports the healing process, helps reintroduce life skills, offers great socialization, and enhances self esteem.**

SPONSORSHIP OPPORTUNITIES & BENEFITS

1 Dining Hall Sponsor (\$6,000)

- Name listed on banner in Dining Hall where all major indoor activities occur.
- Logo displayed prominently on t-shirt, website, and marketing materials.
- Given speaking opportunity at graduation ceremony.
- *One (1) sponsorship available.*

2 Cabin Sponsor (\$3,000)

- Name listed on sign outside camper cabin.
- Logo displayed on t-shirt, website, and marketing materials.
- Given speaking opportunity at meal time.
- *Eight to ten (8-10) sponsorships available.*

3 Individual Camper Scholarship (\$300)

- When you sponsor a camper, you give a survivor courage, renewed strength, independence, self-determination, and a sense of community.
- Logo displayed on t-shirt, website, and marketing materials.
 - *Up to 40 sponsorships available.*

4 Supplies Donation (\$100)

- Help with the cost of our many activity programs designed to meet the needs of all, including those with mobility challenges. Supply needs include bingo prizes, arts and crafts, and camp-certified medical staffing
- Logo displayed in the crafts area
 - *Unlimited donations accepted.*

5 General Donation-Any Amount

- Every dollar counts, and we appreciate a general unrestricted donation in any amount that allows us to apply your donation to our greatest need.
- *Unlimited donations accepted.*

Please donate to keep our camp going strong!

BIAG *in Action*

Financials

Generous donors like you are behind the assistance and care resources we provided to thousands of new callers this year alone.

While grants cover much of our work, there is still a gap that our donors help us cover. Every contribution helps us provide individual support and assistance with resources, programs, and events, as well as providing the highest quality services for our community.

Georgia has over 30,000 suspected traumatic brain injuries reported each year through the Central Registry, yet brain injury remains largely silent and unseen. These numbers do not include our military veterans or acquired brain injuries from strokes, tumors, brain bleeds, or other causes.

Roger Braithwaite was the founder of the Young and Restless in Atlanta Stroke and TBI Support Group, BIAG Board of Directors 2023 Vice-chair. We dedicate this year to our friend and group leader, Roger Braithwaite, who passed away in June of 2023. We are heartbroken to lose such a champion of disability rights. He was loved and will be missed. We will never forget his big smile and servant leadership. His life was well lived and we honor him.

Why Sponsor?

P1

You Likely Know Someone with a Brain Injury

Across the country, more than 5.3 million children and adults live with a disability related to a brain injury—that's 1 in every 60 people. Each year in the state of Georgia, there are over 35,000 new traumatic brain injuries and 25,000 strokes, making brain injury a leading cause of both death and disability in our state.

Who We Are

BIAG is the state's only statewide non-profit organization dedicated to providing prevention, research, education, advocacy, and support services to people affected by brain injury, their families, healthcare providers, and the general public. We greatly appreciate the generous contributions from individuals and businesses that allow us to provide hope, help and support to the thousands of people throughout Georgia who live with the life-long and devastating effects of a brain injury.

- **BIAG is the designated service provider for the State of Georgia Aging and Disability Resource Center.** Because we are considered the state experts in brain injuries and have a dedicated database of resources, all contacts received concerning brain injury or dual spinal cord injury are routed to our Information and Resource Program Facilitators who are Certified Brain Injury Specialists (CBIS) and Options Counselors, providing assessments for Medicaid, waivers, food stamps, and other state programs.
- BIAG offers **Resource Facilitation Programs** specifically designed for people with traumatic brain injuries (TBIs), their families, caregivers, and community to navigate medical and general life challenges after a TBI. This program includes an initial consultation as well as ongoing support for up to two years. Program features include person-centered goal setting, education about TBI and coping techniques, along with connection to community support, disability services, Medicare waivers, and resources.
- BIAG maintains a toll-free **helpline and website** to ensure that all people with brain injuries, their loved ones, and professionals are directed to the appropriate program, resource, or service.
- BIAG has a statewide network of **Support Groups** which provide on-going healing and peer support for their lifelong journey of brain injury. Our support groups are the backbone of BIAG, and are led by trained health care providers, survivors of brain injury, and caregivers.
- **BIAG features several Brain Injury in Georgia (BIG) annual and biennial education, outreach, awareness, and celebratory events**, each of which also offer their own sponsorship opportunities. See sponsorship handouts for more details of this year's offerings.

Who We Serve

Brain Injury does not discriminate—it reaches across ages, genders, races, and ethnicities, as well as financial and economic status. BIAG provides support to people affected by brain injury regardless of background, income, insurance, or immigration status.

What is Brain Injury?

Acquired brain injuries (ABIs) are a wide range of changes to the brain as a result of accidents, diseases, infections, or other incidents. Brain injuries broadly fall into one of two categories: traumatic and non-traumatic. Traumatic includes injuries from things like falls, motor vehicle crashes, being struck by an object, assault, blasts, or other causes. Non-traumatic injuries include a wide range of diseases and other incidents, such as strokes, aneurysms, brain tumors, infections like meningitis, or loss of oxygen to the brain.

Why Sponsor?

P2

GAIN

access to a valuable target audience of people with brain injury, their loved ones, healthcare professionals, and industry leaders.

BUILD

your reputation and brand.

DEMONSTRATE

your values and leadership.

EMPOWER

individuals with brain injury and their families.

BIAG offers multiple platforms for brand exposure. We are committed to crafting partnerships based on your marketing needs and philanthropic values. We provide customized resources, services, and programs for individuals, families, and healthcare professionals. In sharing our commitment to people with brain injury in the state of Georgia, your sponsorship boosts both your business reputation and community standing as well as making your brand a top resource referral at the point of care.

In addition, we are experiencing rapid growth across all of our communication outlets, including:

- **More than 10,000 direct and indirect contacts** with people with brain injury or their loved ones each year;
- **Several thousand individual e-newsletters subscribers each month**, along with our many community and corporate group subscribers;
- Nearly **50,000 annual connections** through our website;
- **Social media followers from 28 countries** across various platforms;
- **Annual walks, conferences, and events that draw thousands** in attendance as well as to our website and social media accounts; and
- **Decades of experience navigating and collaborating** with healthcare, disability, and community services for people with brain injury in the state of Georgia.

Across these outlets, your support of BIAG will be seen and appreciated across the state of Georgia—both by those who need it most, along with peer organizations who will see you as a leader in supporting our critical work.

Your Support Will Make a Difference!

Individuals who sustain brain injuries require **timely access to expert care, specialized rehabilitation, lifelong management, as well as individualized services** and support to live healthy, independent, and satisfying lives. **The Brain Injury Association of Georgia gratefully acknowledges our generous corporate and community sponsors.** Although brain injury survivors come from all walks of life, many victims of brain injury are not financially well off. Even those who may have been financially stable frequently struggle due to the immense costs associated with the ongoing healthcare necessary after brain injury. **Your donation directly supports our mission to provide hope, help and support services for the thousands of brain injury survivors, their families, and our veterans who are impacted every year in Georgia.** The Brain Injury Association of Georgia is committed to maintaining a financially sound business that consistently meets or exceeds local and international accreditation standards and has the resources to meet the members' programmatic needs in a competent, safe, and effective manner that are personalized to reflect individual needs and goals. Responsible and transparent business practices are a priority.

If you are interested in accessing BIAG's IRS 990 Informational Tax Return, please visit our profile on [guidestar.org](https://www.guidestar.org).
